Secured Wi-Fi Facility at KIET

KIET provides a secured Wi-Fi facility with reliable hardware infrastructure across the campus to ensure seamless internet connectivity for students and faculty. This high-speed network supports academic activities such as online learning, research, and project work. With robust security protocols in place, the Wi-Fi system ensures safe and uninterrupted access, contributing to a digitally enabled and efficient learning environment.

Routers placed in different places in KIET:

TDT
PRINCIPAL
Kakinada Institute of Eng. & Technol...
KORANG
