Implementation of Skill India Mission at KIET

At KIET, the Skill India Mission is actively implemented to bridge the gap between academic learning and industry-ready skills. The institution encourages students and staff to participate in **Entrepreneurship and Skill Development Programs (ESDPs)** to enhance their technical competencies, entrepreneurial mindset, and industry preparedness.

The following are some of the key programs under this initiative:

1. ESDP on Generative AI for Data Analytics:

This program focused on training students in the latest advancements in generative artificial intelligence and its applications in data analytics. Participants gained hands-on experience in tools and techniques that are reshaping the data-driven decision-making landscape.

 <p><u>About UCEK (A), JNTU Kakinada</u></p> <p>University College of Engineering Kakinada (Autonomous), J N T U Kakinada was established in the year 1946 by the Government of the Composite Madras State. The college offers 8 Under Graduate(UG), 18 Post Graduate(PG) programmes in Engineering & Technology, MCA and Ph.D programmes in all the eligible disciplines of Engineering & Technology. The institute is an Autonomous college, approved by UGC and AICTE. 5 UG and 10 PG programs were accredited by NBA. The college is organizing number of summer schools, seminars, workshops, symposia and conferences to disseminate knowledge in advanced engineering subjects. Several public and private sector organizations are benefited by consulting this college for technical advice.</p> <p><u>About the CSE Department</u></p> <p>The Department of Computer Science and Engineering, UCEK(A) was established in the year 1990. Outcomes:

- Faculty members enhanced their understanding of AI and its practical applications in academic settings.
- Participants are expected to incorporate learnings from the bootcamp into their curriculum and research activities, fostering innovation and efficiency.

2. **ESDP on Emerging Technologies of Artificial Intelligence and its Sub-domains:**
Covering core areas like machine learning, deep learning, and natural language processing, this program enabled participants to understand AI's role in real-world applications, fostering innovation and research interest.

6. **DFIR Training and Internship Program & Participation in NVIDIA AI Summit, Mumbai:**

The DFIR (Digital Forensics and Incident Response) training offered in-depth exposure to cybercrime investigation and digital evidence handling. Additionally, student participation in the NVIDIA AI Summit provided firsthand insight into global trends in AI, networking opportunities, and exposure to cutting-edge technologies.

Participation in NVIDIA AI summit:

The R&D Showcase - 2025:

This event was a platform for students to present their innovative projects and research outcomes. It significantly broadened their understanding of how emerging technologies can drive sustainable solutions. The showcase fostered a spirit of inquiry, encouraged collaborative innovation, and inspired students to pursue future research and development initiatives.

Through these initiatives, KIET continues to align with the objectives of the **Skill India Mission-empowering students** with relevant skills for a dynamic and evolving technological world.
