COMPUTER LABORATORY FACILITIES

At Kakinada Institute of Engineering and Technology (KIET), every department is equipped with a dedicated spare computer laboratory comprising at least 20 computers to support departmental academic and project work. In addition, KIET maintains a state-of-the-art centralized computer laboratory with over 100 computers, designed to facilitate common computing needs, skill development programs, coding practice, and workshops. These well-equipped labs ensure seamless access to modern computing resources for all students, enhancing their technical proficiency and supporting innovative learning
